

The Hybrid Mind

– the more high tech our lives become,
the more nature we need.

by **Richard Louv**

and

Jointly sponsored by **Victoria University of Wellington,**
the MacDiarmid Institute and the Department of Conservation

Richard Louv is a journalist and author of eight books about the connections between family, nature and community. His book *THE NATURE PRINCIPLE: Human Restoration and the End of Nature-Deficit Disorder* offers a new vision of the future, in which our lives are as immersed in nature as they are in technology. This future, available to all of us right now, offers better psychological, physical and spiritual health for people of every age.

Richard is in New Zealand as keynote speaker at **A Place to Live... for the life worth having, Whanganui, 16-19 November, www.aplacetolive.org.nz**
